

THE NEST

Learn & First Campout

First time to try out Camping with Family?

Learn & First Campout is designed to offer a balance of structured activities and ample free time for discovery. Our programme provides the opportunity for both adults and children to immerse themselves in adventure & nature connection.

Fun and educational at the same time, 2Days 1Night Learn & First Campout offers families a break from busy city routines at The NEST @ MAEPS Serdang. Families can relax while have fun exploring together.

Safety has been our top priority since our establishment in 2005. All our programs are in line with ISO standards 21101, 21102 & 21103. We also integrate "Leave No Trace" outdoor principles so that families learn about the importance of nature conservation and sustainability.
